Response to the letter regarding the environmental impact
assessment of the wind farm "Limbaži"

Dear Daiga Avdejanova,

On 13 October 2023, Latvia notified Estonia in accordance with Article 3 of the Convention on Environmental Impact Assessment in a Transboundary Context (Espoo Convention) regarding the "Limbaži" wind farm project. On 23 November 2023, Estonia sent a response to Latvia, expressing its intention to participate in the environmental impact assessment (hereinafter *EIA*) of the wind farm "Limbaži".

On 2 December 2024, Latvia informed Estonia of the EIA report of the "Limbaži" wind farm project and forwarded the EIA report in English along with a summary of the report in Estonian. The Ministry of Climate of Estonia organised a public display of these documents (from 17 December 2024 to 17 January 2025). On 3 February 2025, Estonia sent an reply to Latvia's letter, enclosing the statements by the Estonian Environmental Board and the non-governmental organisation MTÜ Inimese ja Looduse Eest, which were received during the public consultation process.

On 10 March 2025, Latvia informed Estonia that the EIA consultant LLC "Enviropojekts" had prepared responses to the comments submitted by the Environmental Board and MTÜ Inimese ja Looduse Eest, and had also updated the EIA report and its summary. Latvia requested that this information be shared with the Environmental Board. Latvia explained that as the letter by the non-governmental organisation had been sent directly to Latvia, a separate response would be addressed to the organisation.

On 14 March 2025, the Ministry of Climate of Estonia forwarded the updated EIA documents, including the EIA consultant's responses, to the Environmental Board. On 25 April 2025, the Environmental Board sent a formal response (enclosed), indicating that the planned activity is not anticipated to have any significant transboundary impact on Estonia and confirming that no further comments or proposals regarding the EIA report are to be made.

Sincerely Yours,

(signed electronically)
Birgit Parmas
